15 AUG 1960

MEMORANDUM FOR: Colonel Leo P. Geary

SUBJECT : Recommended Policy Concerning Future
Air Force Assignments of CHALICE Pilots

1. In view of the considerable amount of highly sensitive information accumulated by pilots who have served in Project CHALICE, it is strongly felt that this knowledgeability factor should receive heavy consideration in determining their future assignments.

2. It is accordingly recommended that for a period of three years following their termination from CHALICE these pilots not be assigned to an overseas location. It is further suggested that no authorization be given to allow their travel into Soviet, CHICOM, satellite territories, Yugoslavia, West Berlin, or Cuba.

3. I would appreciate your clearing with appropriate officers of Air Force Headquarters this modification of our basic agreement pertaining to the termination of pilots from CHALICE.
